DAEWOO Introducing deep cycle Lead Acid Batteries, are best solution for your energy storage system that ensures reliability and longevity. We understand market needs and developed an innovative deep cycle Energy storage battery that provides the best available power solutions for your homes & Industry.

Our batteries are heavy weight i.e energy dense plates that use more active lead material. Heavier plates that use more lead material are directly related to stronger battery performance and longevity.

INVERTER TUBULAR BATTERIES

SPECIFICATION CHART

Model Number	Range	Capacity @C20 Rate	Warranty (In Months)	Charging Current (in Amps @C20)
TALL TUBULAR INVERTER BATTERY RANGE				
DW1600TT	TT	160	36+36*	8
DW1800TT	TT	180	36+36*	9
DW2000TT	TT	200	36+36*	10
DW2400TT	TT	240	36+36*	12
DW2600TT	TT	260	36+36*	13

PRODUCT FEATURES

- HIGH BACKUP WITH ULTRA LOW MAINTENANCE
- LONGER LIFE AND HIGH POWER OUTPUT
- USING BEST GRADE PP CONTAINERS AND LID
- INNOVATIVE POSITIVE PLATE MADE WITH PDC MACHINE OF ZIBO
- HIGH TENSILE RESISTANCE/POROSITY POLYESTER GAUNTLETS
- HIGH POROSITY PE ENVELOPE SEPARATORS FROM DARAMIC, USA
- MICRO POROUS CERAMIC VENT PLUG
- HEAVY DUTY TERMINALS
- SS FASTENERS
- DOUBLE SIDE PASTING NEGATIVE PLATE
